## FOREWORD

THE AMERICAN ELITE AND SOCIOLOGIST presents in one volume a galaxy of Twenty Thousand representative members of Elite Clubs, Societies, Asociatiations, Institutions and Organizations prominent in the Social, Industrial and Financial Development of Life, Thought and Progress in the various lines of endeavor trending to the betterment of society.

These representative Citizens of character and influence,by their enterprise and thrift, by their activity and sagacity in business, and by their zeal in educational, social, and public matters, have contributed vastly to the moral, spiritual and material prosperity of the community in which they live.

Sociology is an attempt to account for the origin, growth, structure and activities of human society, by the operators of physical, vital and psychical causes, working together in a process of evolution.

As Builders and Merchants, they have erected buildings and illuminated the marts of trade; in the field of Science and Medicine they have produced men of thought and men of action, while at the Bar and in the administration of Justice they have shown erudition and wisdom. As Clergymen, Educators and Lecturers they have occupied high places; as Artists, Musicians and Authors they have contributed profusely to social life; and last but not least, as Members of Clubs, Societies, Associations and other Organizations, they have been an invaluable factor in the uplift of thought and progress in all lines of human achievements.

We feel confident that this authentic collection of America's foremost living leaders of Social and Industrial Life and Thought will be and invaluable acquisition to current literature, and will meet with a hearty welcome at the hands of an intelligent public.

THE EDITORS.

## PUBLISHER'S NOTE

Mistakes will undoubtedly be found in this volume, but they exist not for want of painstaking efforts to avoid them but generally from imperfect manuscripts or conflicting statements of standard authorities. What is worth recording at all, is worth recording carefully and correctly; and when mistakes are discovered, a memorandum of the erors should at once be sent to the American Blue Book Publishers Chicago, Ill., for correction in future editions of this work.
